## PANEL DETAILS

PANEL DETAILS			
<p><b><u>Bacterial Vaginosis DNA PANEL</u></b>                      Candida DNA                      Trichomonas                      DNA                      Gardnerella</p> <p><b><u>Basic Metabolic Panel</u></b>                      Sodium                      Potassium                      Chloride                      Carbon Dioxide                      Glucose                      Urea Nitrogen, Bld                      Creatinine                      Calcium</p>	<p><b><u>Complete Metabolic Panel</u></b>                      Sodium                      Potassium                      Chloride                      Carbon Dioxide                      Glucose                      Urea Nitrogen, Bld                      Creatinine                      Calcium                      Protein, Total                      Albumin                      Bilirubin, Total                      Aspartate Amino Transferase                      Alanine Aminotransferase                      Alkaline Phosphatase                      Globulin</p>	<p><b><u>Hepatitis Acute Panel</u></b>                      Hepatitis A IgM Antibody                      Hepatitis B Surface Antigen                      Hepatitis B Core IgM Antibody                      Hepatitis C Antibody</p> <p><b><u>Lipid – Calc LDL Panel</u></b>                      Cholesterol Level                      Triglycerides                      HDL                      Non-HDL                      LDL, Calculated                      Risk Ratio</p>	<p><b><u>Renal Panel</u></b>                      Sodium                      Potassium                      Chloride                      Carbon Dioxide                      Glucose                      Urea Nitrogen, Blood                      Creatinine                      Calcium                      Albumin                      Phosphorus</p> <p><b><u>Hepatic Function Panel</u></b>                      Protein, Total                      Albumin                      Bilirubin, Total                      Bilirubin, Direct                      Aspartate Amino Transferase                      Alanine Aminotransferase                      Alkaline Phosphatase                      Globulin</p>

**Reflex Tests for Screening Results**

**ANA Reflex Panel** – SS-A/Ro Ab, SS-B/LA Ab, Sm Ab, Chromatin Ab, RNP Ab, Scl 70Ab, JO-1 Ab, Ribosomal P Ab, Anti-Double Strand DNA Ab, Anti-Centromere Ab

**Hepatitis B Surface Antigen** – Hep B Surface Ag w/Conf.

**HIV 1,2 Ag & Ab Reflex**- HIV 1,2 Ag&Ab, 4<sup>th</sup> Gen to Quest, if Reactive > HIV 1,2 Ab Diff, If Ab Diff is Neg or Indeterminate > HIV-1 RNA, Qual TMA

**Rapid Strep** – Throat Culture

**Stool Pathogens** – Reflex stool culture

T. Pallidum Ab Reflex – RPR, if negative RPR > T. Pallidum Ab to Quest

Urinalysis w/Microscope:

- Clarity is anything other than clear
- Protein is ≥ or = to 30mg/dL
- Blood Detected
- Nitrite Positive
- Leukocyte esterase is positive

Urinalysis will reflex to a culture when both of the following criteria:

- WBC in ≥
- Bacteria are present (≥1+1)
